**Subject:** Draft Project Plans for Review

Hans:

Attached for your review are draft project plans for the two proposed clinical research studies. Please look them over and let me know if you have revisions.

Also attached for your review is a draft project plan for the data management system project. I've pulled information from Bettie's proposal where possible, but I would like you (or perhaps Bettie) to look at the proposed milestones and determine if are appropriate and what the target milestone dates should be. I've also left a message with one of our IS contacts to get some guidance on how we should best proceed with getting this project off of the ground. I'll convey that information as soon as I receive it.

Let me know if any questions.

Thanks,  
Valerie
